

Please do not expand Low Power FM radio stations. I fear it would reduce the quality of my favorite station, K-Love, 91.5. Listening to the K-Love on my radio provides me with the peace & solace I need in my day. It is the only family friendly choice on the FM dial. I don't feel it is fair K-Love would be displaced by LPFM stations. In today's world, K-Love provides a shelter from all the evil that is so prevalent in society.
